Behind the Scenes Visit to Auckland Transport Centres

Last Wednesday the Year 5 children went to Britomart and Smales Farm to see how Auckland Transport works.

We went behind the scenes learning about the train and bus networks e.g. how they vary the number of carriages on a train depending on the time of day.

We found out that AT has over 1600 cameras operating in Auckland. These are to monitor the traffic so they can then warn people using their electronic screens, and turn the lights on and off to allow the motorways to flow.

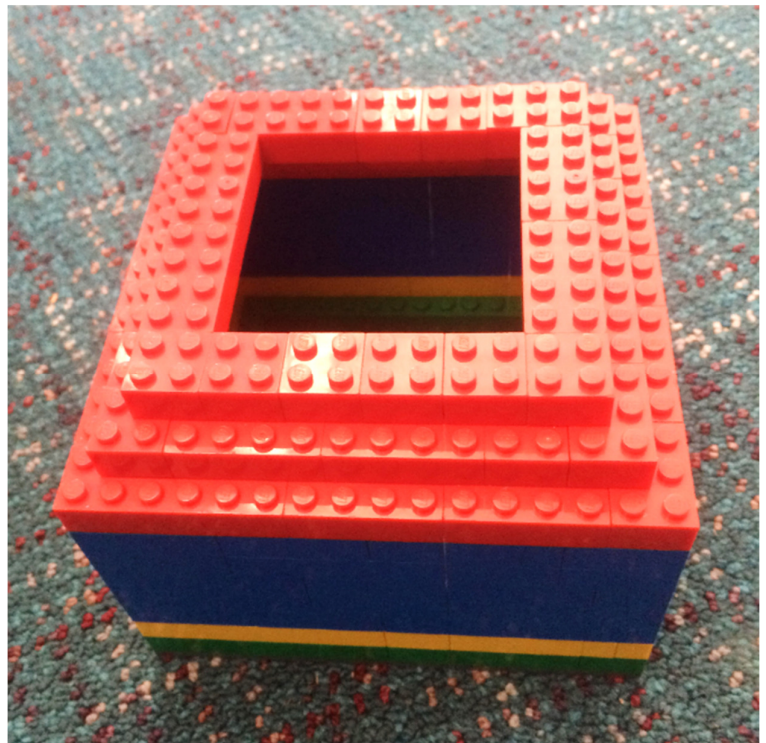

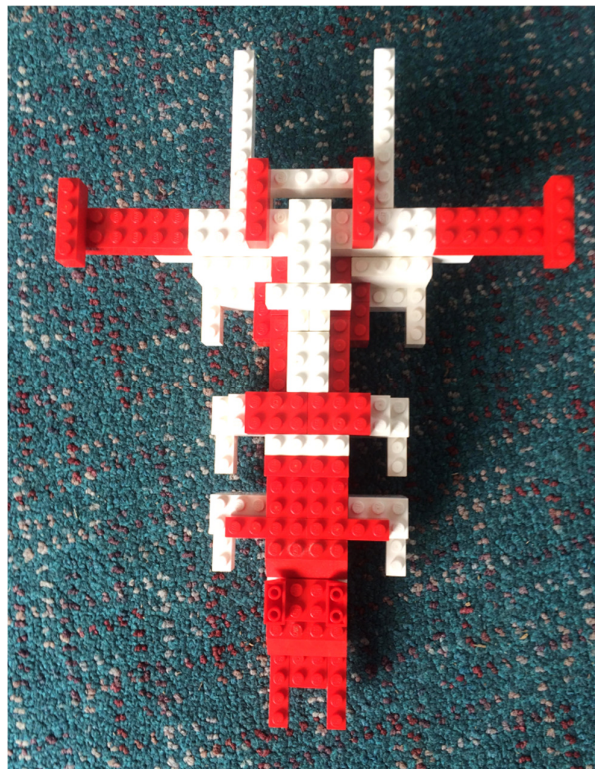

We found out that AT are building a train loop under the city! The best bit was seeing all the screens in the AT Operation Centre. It was really special for us to be able to go there!

QUICK WRITES in Whānau Kokoru

Kaia wrote for 10 minutes in response to these two Lego creations made by the seniors last Friday - Thanks Thomas, Jack and Iggy and thanks Kaia for your creative writing.

Click! I hear the sound of my brother building through the bedroom door. He's not allowed to have the light on or build past 7pm but I didn't mind. I wasn't allowed to have my light past 8:30pm but I was reading my book.

Suddenly the Lego clicking stopped. This wasn't unusual. Everytime he finished a creation he'd stop building and give a whispered, "Yes!" of triumph. I waited for him to say yes but he never did. Instinctively I knew something was wrong. He never stopped until he finished something and when he did he always celebrated.

The house was still and unknown in the dark but I had no choice, I had to make sure my brother was OK. I slowly opened the door and peered in. Then sighed with relief. He had simply fallen asleep while building. I slipped out the door and went back to bed.
