Nau mai, haere mai!

Congratulations to Bill who was married on Saturday 21st November. We wish him and his wife Diana all the best.

All children at Bayswater School are seen as having leadership potential and we encourage them to grab the many opportunities offered to them. Below are some recent activities that not only have given children some great experiences but also developed leadership attributes. 1. The Enviro Group is voluntary, meeting once a week, working together to maintain our GreenGold Enviroschool status. It's been a quiet year for them with all the restrictions but they have spent time caring for the plantings on the slope on Roberts Ave. 2. Born to Move is a fitness programme using music and movement, in which children learn the routines and lead the sessions. 3. In the process of creating their stop motion movies the juniors enlisted selected senior children to be experts. It is a great leadership skill to be an expert that guides and teaches others while not taking over!

Signage for Te Korowai o Papatūānuku

Lance Cablk, Programme Coordinator from Restoring Takarunga Hauraki, along with a local artist Natanahira have been helping members of the Enviro Group create with clay. This is in readiness to create clay signage for the trees on Te Korowai o Papatūānuku.

Born to Move

It has been a slow start to Born to Move this year due to group number restrictions, and lack of time for the child leaders to learn the routines however it is now well under way and being enjoyed by all.

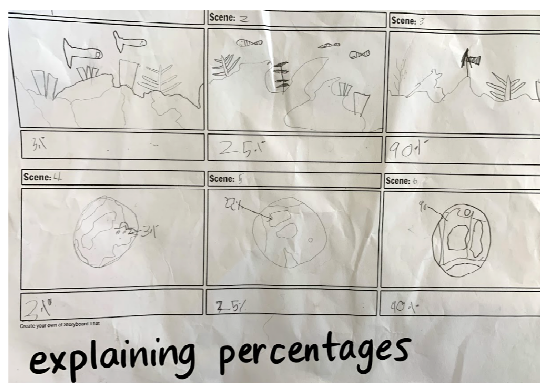

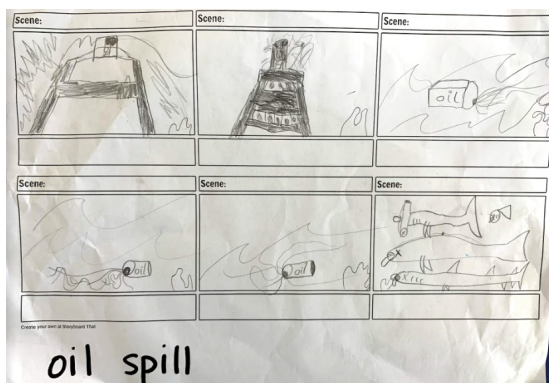

Stop Motion Movies

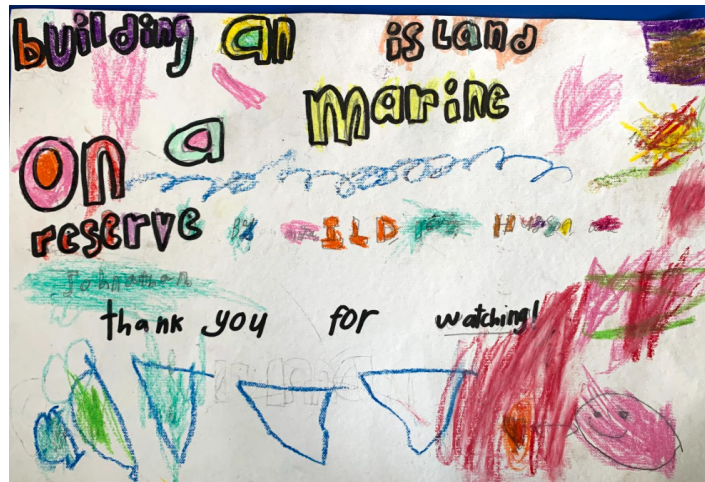

Last week all our clever Year 1 and 2 children created Stop Motion movies. They used the Stop Motion app to create the movies then exported them to iMovie for sharing. A group of senior children helped them through the process, teaching them along the way.

Creating characters, props and scenery
